

# Position Announcement: Instructor/Professor of Practice, Department of Engineering Education (EngE) at Virginia Tech

## **Position Summary:**

The Department of Engineering Education (EngE) at Virginia Tech is seeking applicants for general engineering instructors. Applications are invited from individuals dedicated to undergraduate teaching and student engagement. Candidates are sought with experience teaching and developing courses in engineering application of software tools (including CAD, spreadsheets, computational programming, and/or data acquisition) and/or experience in teaching problem solving, design, and professionalism at the freshman/sophomore level. Evidence of ability to contribute to emergent directions of the department, including design education, entrepreneurship, and global engineering, is welcome. EngE ([www.enge.vt.edu](http://www.enge.vt.edu)) is home to an outstanding first-year engineering program that engages students with an innovative curriculum that provides a hands-on, minds-on approach to engineering education. Please go to [www.jobs.vt.edu](http://www.jobs.vt.edu) and search for Posting Number TR0150145 for complete information about the position and the application process. Applications should include a Resume/Curriculum Vita, cover letter, and names and contact information of three references.

Virginia Tech is an Equal Opportunity/ Affirmative Action Institution.

Review of applications will begin January 1, 2016, and continue until the position is filled. For full consideration, please submit by January 1, 2016. The desired start date for the position is August 10, 2016.
