

## **Join a #1 Ranked Team @ Kettering University**

Kettering University, rated #1 in Industrial Engineering in the country by *U.S. News and World Reports* (for non-Ph.D. granting institutions) is seeking an outstanding individual for the position of Assistant Professor of Industrial Engineering.

The successful candidate will have a Ph.D. or equivalent in Industrial Engineering or a closely related field of engineering. Two years of experience as an engineer in industry is preferred.

Teaching is the primary focus of Kettering University and outstanding communication skills are a priority. The successful applicant will be expected to develop a program of research and applicants with research interests in production planning are welcome. Finally, an important aspect of service to the university is participation in student recruiting efforts.

Kettering University is located in Michigan and is known for its requirement of experiential learning in all undergraduate degree programs which is mostly accomplished through cooperative education which leads to full time jobs for the vast majority of our graduates.

Kettering is within one hour of metropolitan Detroit, Ann Arbor and East Lansing, all home to large state universities. The cost of living in the local area is modest and offers a wonderful quality of life.

Read more about our incredible students on [www.kettering.edu](http://www.kettering.edu) and click on Career Opportunities at Kettering or go directly to <https://jobs.kettering.edu> to learn more about requirements, position duties and application instructions. Application materials submitted by January 15, 2012 will receive priority consideration for this opportunity which will begin in July of 2012.
